

EZ-ZONE® Configurator Software Provides Easier Set-up for EZ-ZONE Products

EZ-ZONE® Configurator software allows Watlow® EZ-ZONE products to be configured in one simple process. Its interface is flexible and easier to read than the basic remote user interface (RUI). It operates without requiring purchase of communications options as it uses the standard bus communications protocol that is included with all EZ-ZONE products.

The EZ-ZONE Configurator software is available as a free download at www.watlow.com.

Features and Benefits

Communicates with EZ-ZONE products via standard bus protocol

- Works regardless of which communications option is purchased or even when no communications option is purchased

Detects EZ-ZONE devices and reads up configuration

- Allows easy access to any setting

Presents pages and menus as they are in the controller's display, RUI and manuals

- Enables the user to easily locate what they are looking for

Wizard-style editor with menu explorer

- Allows for easy examination of each menu
- Enables the user to skip directly to the parameters they want to work with

On-screen parameter help

- Reduces configuration errors
- Helps the user take full advantage of available features

Copy parameter settings

- Decreases the time to configure especially for multi-loop controllers

Features and Benefits (cont.)

Save configuration files on the computer with all the information required to set up a controller

- Preserves the settings for archiving, recovery or to simplify setting up another EZ-ZONE product
- Enables files to be e-mailed or made available to users on a network or via the internet to aid them with set up

View or modify configuration files saved during on-line editing sessions

- Allows users to get a jump on setting up EZ-ZONE products
- Aids in supporting remote users

Downloads saved configuration files

- Simplifies configuration of EZ-ZONE products

Flexible and smart compatibility checking

- Ensures configuration files are only loaded into devices that are similar enough to the original that the settings make sense

Illustrated Features

Detects EZ-ZONE devices connected to the computer's communications ports.

Menu explorer allows users to skip directly to desired parameter or browse each setting.

Copy feature speeds up configuration.

Confirms that parameter downloads were successful and reports exceptions.
